

CUT ON THE SLIT ABOVE

and attach this ruler to the ruler below to roughly measure your neck

--- cut on the line below ---

1. Print this out
2. Grab some scissors
3. Cut this paper in thirds using the two lines as a guide
4. Attach the ruler above to the ruler below by gently tearing a small slit on the lines provided, and hook the two pieces of paper together to complete the ruler.
5. Remember your neck size and order the NechTech™ rash reducer on <http://andrewswatersports.com/nechtech>
6. Tell your friends, and enjoy a chafe-free neck!

The NeckTech™ rash reducer is designed to reduce or even eliminate the chafe that occurs around the neck from wetsuit use. While this chafe and the resulting painful rash is most commonly experienced by surfers, the NeckTech™ rash reducer can be worn by anyone who participates in aquatic activities and wears a wetsuit. The NeckTech™ rash reducer is designed to protect your neck. Because of this it is also perfect for old wetsuits where the Velcro does not fully attach or rubs against the neck.
